

DX-150

Ergonomic Optical Mouse

Introducing a new optical mouse from Genius ~ DX-150. With a 1200 dpi optical sensor that has triple the accuracy compared to a standard optical mouse, you'll have precision control over your mouse cursor.

The unique texture on the thumb and palm area is comfortable to hold for long working hours.

Available in a compact hanger package, it matches perfectly in any contemporary environment. Contact your sales representative now for more information about the DX-150.
